ICE Cream *keeper*

VACUUM INSULATED TUMBLER

Great new products often have one common characteristic and that is they are a better solution to an old problem. In this case it doesn't get any better for ice cream lovers! We have solved the problem of ice cream melting to liquid in a few minutes on a hot day. The Asobu® Ice Cream Keeper has a 5 layer design, utilizing multiple cooling chambers, that will keep a pint sized carton of ice cream frozen hard and fresh to eat for hours. Made of double wall vacuum insulated stainless steel with an inner copper lining, the Asobu® Ice Cream Keeper also has a freezer gel inner section and inner lid that ensures the pint of ice cream stays frozen hard for hours. The Asobu® Ice Cream Keeper comes with two reusable plastic spoons built into the inner lid. A sturdy handle makes it easy to carry when on the go. Ideal for picnics, beach activity, poolside, Bar B Q and backyard activities or even when snacking at home!
